Thank you, Maureen!

I apologize, I'd started wordsmithing last weekend but didn't complete in time for Monday's meeting. So I added some wordsmithing to the new version of the table here.

Also, I looked at the outline briefly and had one thought that I added to this version. Looks like a good start!

Subject: Innovations in RA table update

Hi all -

Following up on our last meeting, for those that were not in attendance - we had a good discussion on the draft table, in large part related to the fact that we are all coming at this from a different perspective so some of the cells would mean different things to different people.

I've attached both a clean and track changes version of the revised table. This definitely still needs some wordsmithing, so if people want to have a meeting next week in Tom and Bob's absence to discuss, I can set that up. Alternatively, we can work through email and compile all comments for the 9/8 meeting.

Based on the last meeting:
